

Keeping the North Shore Hospital community informed about developments relating to Tōtara Haumaru, the new four-storey, state-of-the-art hospital facility, due for completion in 2023.

Project update

Work is continuing to progress on the build site. Redundant in-ground services have now been removed and earthworks and preliminary drilling works are now underway. The site is currently 97% asbestos-free, with this last section of affected material to be removed by the end of July. Phase one of the Hawkins site establishment plan has now been completed.

Earthworks have started on the build site

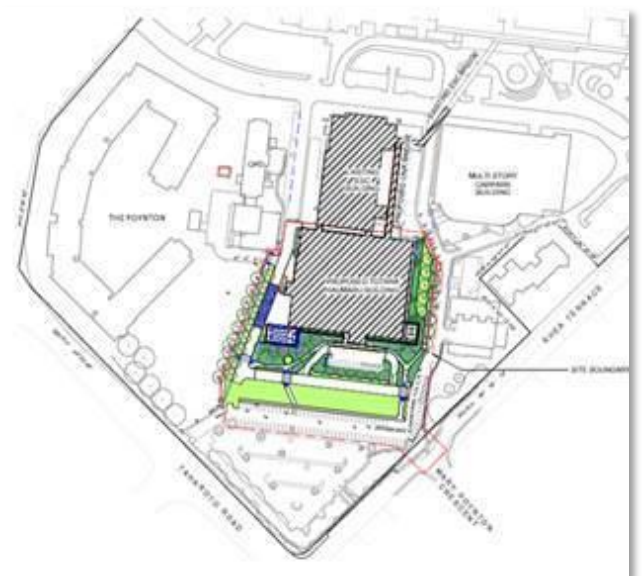

Final area of asbestos being cleared under the tent

Build timeline

Date	Activity
Jun 2021	Building earthworks commence
End July 2021	Piling commences
Oct/Nov 2021	Two cranes located on-site
Mar 2022	Super structure starts
Sept 2022	Building watertight
Sept 2022	Fit-out commences
Dec 2023	Practical completion

Meeting with the Poynton residents

On June 17, we met with residents of the Poynton. This provided an opportunity for us to introduce the DHB project team as well as Hawkins (our main construction partner) to the residents. We provided a high-level project update and answered questions. We welcome feedback and questions and will hold further sessions as the project progresses.

Decals at North Shore Hospital

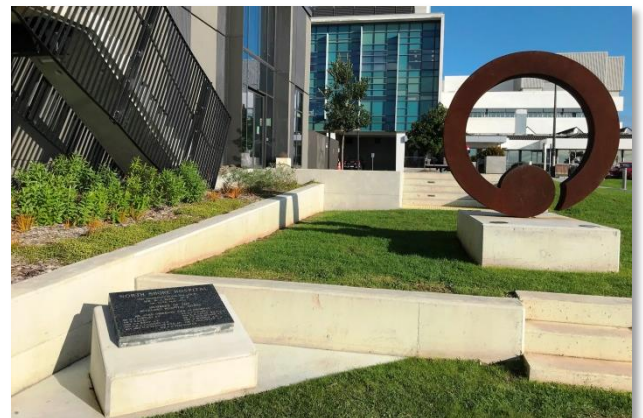

Wall graphics will shortly be placed inside the front entrance to North Shore Hospital and along the fence line on Taharoto Road to give the public details about the project and the benefits it will bring.

Proposed location inside North Shore Hospital

Original hospital plaque now in new home

The official opening plaque from the original hospital on the Tōtara Haumaru site has been preserved and is now in its new home outside the Whenua Pupuke Building (near the helipad) at North Shore Hospital.

Hours of work

Typically, work occurs between the hours of 7am and 6pm, Monday - Saturday. If an occasion arises where we need to work outside of these hours, advance notification will be provided.
